

William Friend

Currently, I am working and delivering new capabilities at Geospatial Intelligence Pty Ltd, and I have graduated in a Bachelor of Software Engineering and Bachelor of Business Informatics.

I am experienced in:

- **Kubernetes (On-prem, AKS),**
Deployed several projects to production and development environments.
- **Kustomize and Helm,**
I have used these together (see <https://medium.com/@brent.gruber77/the-power-of-kustomize-and-helm-5773d0f4d95e>) and separately, with different overlays for different clusters, and types of clusters (On-prem, AKS).
- **CI/CD (Azure DevOps, Github actions),**
I have successfully integrated different builds (usually through docker containers) for testing PRs before merging.
- **git (following the convential commits spec),**
I write atomic commits, not focused on the amount of lines, but the amount of change.
- **NextJS, TypeScript, React Library and Prisma,**
Successfully deployed a full-stack application for Her Kitchen Table: <https://region.com.au/automating-the-kitchen-her-kitchen-table-gets-a-tech-upgrade/789972/>
- **C++, Java, and C#,**
Studied and assessed on in Software Tech 2 and 1 at UC.
- **Unix-based systems,**
Part of daily routine, heavy use in WSL, VMs, and bare metal.
- **Python OOP development,**
I have learned and tested a few different OOP design patterns using Python.
- **working with RESTful APIs, and;**
- **IT infrastructure management.**

My Qualifications (See will.friendly.dev for links to documents)

- Bachelor of Software Engineering / Bachelor of Business Informatics, majoring in Information Technology, and Cyber security / Network Administration, University of Canberra. (Graduated 2024)
- NSW TAFE Statement of Attainment III Certificate in Information Digital Technology
- Australian Citizen

My Work Experience

- Geospatial Intelligence Pty Ltd, September 2022–Present
 - Kubernetes,
 - Azure Devops,
 - Server Infrastructure maintenance, repair, deployment, and documentation.
 - Scripting
 - Networking
- KFC Restaurant Belconnen
 - Shift Supervisor 2021–2022
 - Team member 2020–2021
